To: Land Protection Planning Commission
Public Hearing Date: February 23, 2021
File No.: CU-21-001

SUBJECT: Conditional Use request.

APPLICANTS: Alexis Egerer (lessee) and Debra Roesch (Property Owner Contact)

NATURE OF REQUEST:

Conditional Use #CU-21-001 – Applicant, Alexis Egerer, Hermiston, OR, and property owner contact Debra Roesch, Pendleton, OR are seeking approval to re-establish a home site on the subject property including placement of a single-wide manufactured home, replacement of an existing septic system and repair of an existing well. The proposed structure would be 14 feet by 66 feet. The proposed structure is similar in size to one that was approved for the site in 1976 but was removed from the site in about 2012 since it was in disrepair.

BASIC FACTS:

1. **Ownership:** According the Umatilla County assessor’s office and deed dated 4/13/20, the property is owned by the Carol Roesch Estate, with William Roesch as personal representative and Debra Roesch as primary contact.

2. **Applicant:** The applicant, Alexis Egerer, has leased the property from the owner with the intent to clean it up, move a manufactured home onto the property, and live there with her family, if allowed through this Conditional Use application. The owner would replace the septic system and restore the well.

3. **Property Description:** The property is Tax Lot # 1N3403C0-00700, located at 69499 Emigrant Road in SW 1/4 of Section 3, Township 1 North, Range 34 East, W.M. The subject property is 7.32 acres.

4. **Legal Access:** The property and driveway front on Emigrant Road. Emigrant Road is a County Road.

5. **Topography:** The site slopes from the driveway down to the site where the home site was previously located and then slopes down to the northeast. The sloped areas of the site are timbered. The center portion of the property has a flat area as does a portion of the westerly part of the property where one of the sheds is located.
5. **Zoning:** The subject property and surrounding area are within the G-1, Big Game Grazing Forest Zone. The lot is considered a non-conforming legal lot of record since it was created before the current zoning standards were in place, and is smaller than the current minimum lot size within this zone of 159 acres.

The picture below shows the proposed location for the home site, with adjacent electric pole.

![Image of proposed location](image)

The following site plan was submitted as part of the Conditional Use application by the applicant.
6. **Conditional Use Process and Approval Criteria:** Per the Land Development Code, within the G-1 zone, single family dwellings including manufactured housing are a Conditional Use; they can be permitted if, after a public hearing, the Land Protection Planning Commission determines that the use meets the approval criteria in the Land Development Code Section 6.015:

Conditional Uses must also meet the Site Plan Review criteria in Chapter 10 of the Land Development code. The site plan review process includes consideration of how elements of the site plan will relate harmoniously to the natural environment and the existing buildings.

**FINDINGS:**

1. **Tribal Staff Review Committee (TSRC):** The TSRC received a copy of the Conditional Use application on January 14, 2021. A meeting of the committee was held on January 21, 2021 to discuss the application. The DNR Wildlife Program Manager noted that generally the G-1 zone should be prioritized for wildlife, but that this area contains several residences and the small size of the property and proximity to Emigrant Road make it of lower value to wildlife than some areas. There was also a comment that the south end of the property which contains the previous home site is sloped while other areas of the site are flat. Water Resources agreed to do a site visit, which was conducted on January 21, 2021. The site visit documented a pond and small stream flowing through the property.

2. **Current Land Uses:** The subject property is currently vacant although the remnants of a past home site are evident in the outdoor stone fireplace, electric utility pole, and several cisterns, one of which may be a drilled well, although no well log could be found. There is
also some scattered remnants of a building and concrete foundation and two sheds. Other uses include wildlife habitat and forest.

3. **Adjacent Land Uses:** There are several dwellings in area, generally on larger lots containing some forested land.

4. **Zoning:** Dwellings are permitted uses in the R-1, R-2, Ag-1, Ag-2, Ag-3, and P-1 zones. Dwellings are considered a "Conditional Use" in the G-1, Big Game Grazing Forest Zone.

5. **Past Permitting Activity on the Subject Property:**

   A permit was granted in 1976 for a manufactured home to be located on the property. Available Google Earth aerial photos show a manufactured home in 1994, 2001, 2003 and 2005. (see Exhibit 1B). By 2012, the manufactured home is clearly gone. A Zoning Violation was issued in 2012 to Paula Stark, who was then listed as the owner, for work on a shed on the property without permits. At that time it was determined that the manufactured home had been recently removed and would need to be re-established within 6 months of through a building permit or would require a Conditional Use approval beyond that time-frame per Land Development Code Chapter 5, Nonconforming Uses.

6. **Streams:** The CTUIR GIS information shows a “Strahler 1” stream on the property which is the lowest classification of stream.

7. **Site Inspection:** A site inspection was done January 19, 2021. Photos were taken of the proposed manufactured home location, existing pond and cisterns.

   Pond is visible in Center of photo in an aerial photo from June, 2013
Pond and drainage channel flowing northeast at the low point of topography.
Drainage flows just south of old fireplace and then just north of the pad where the old homesite was located.
While the pond and stream are seasonal, the stream requires a 100’ setback if it meets the Land development Code’s definition in Section 2.020, 155:

**Stream:** A natural water course with a definite bed, banks, and zone of riparian vegetation as it existed under natural conditions. Any act of obliteration of the bed, banks, or vegetation of a stream does not cancel the existence of the stream, if natural processes will in the course of time and in the absence of human interference restore it to a condition similar to that existing prior to such act of obliteration.

An analysis of the topography, vegetation and stream layers show that over time this has been the location for the area’s drainage which flows north into Cottonwood creek and eventually to the Umatilla River.
Site Plan Review

The site plan initially submitted shows the proposed location of a single wide manufactured home in approximately the same location as established previously. However, the stream flows just to the north of the proposed home site and requires a 100 foot setback; the proposed location would need to be adjusted to meet this.

8. Decision Criteria:

The decision regarding whether to grant or deny the conditional use must be made based on the decision criteria in the Land Development Code, Section 6.015. An analysis of the criteria follows:

1. That the locations, size, design, and operational characteristics of the proposed use are such that it will have minimal adverse impact on the property value, livability, and permissible development of the surrounding area. Consideration shall be given to compatibility in terms of scale, coverage, and density, to the alteration of traffic patterns and the capacity of surrounding streets and roads, and to any other relevant impact of the proposed use.

Applicant’s Statement:

We will have very minimum impact on the surrounding land. We are planning on putting this single wide trailer in the same location they previously had in the past; there is already an existing two wells. We also plan on cleaning up all the debris and cleaning up all the fence around the pond so wild life now can safely drink from the pond.

Staff Analysis.

While the manufactured home would need to be placed in a different location from where it was previously to maintain at least 100 feet from the stream, it would be valuable to have the property cleaned up and the previous septic system properly decommissioned. If the new manufactured home and septic are set back at least 100 feet from the stream and the septic 100 feet from the well, the proposal will have minimum impact on the area. There is already an existing driveway at the south end of the property. It would also be possible to locate the home site in the center of the property where there is level access and a flat bench.

The least impact to the land would be where the land is already level and where vegetation does not need to be removed.

2. That the site planning of the proposed use will, as far as reasonably possible, provide an aesthetically pleasing and functional environment to the highest degree consistent with the nature of the use and the given setting.
Applicant’s Statement:

We want to live in harmony and peace with the animal life in the surrounding area; we plan on barring our windows and doors; this is not our first time living in a secluded area on a mountain so we are experienced with this kind of territory and animal life.

Staff Analysis:

The applicant previously encountered a bear on the property but does not think this would be a concern as they are comfortable with living in areas where there is wildlife.

The applicant will need to submit a revised site plan showing a revised location meeting the Land Development Code’s setbacks and Site Plan Review requirements.

3. If the use is permitted outright in another zone, that there is substantial reason for locating the use in an area where it is only conditionally allowed, as opposed to an area where it is permitted outright.

Applicant’s Statement:

With the world as it is today facing the pandemic and everything around it in our growing family would like to be comfortably distance from the city life we would love to get back to living off the land and giving back to the land with organically growing a garden with veggies.

Staff Analysis

While this land is zoned G-1, there was a home site located there previously with some infrastructure remaining at the site and access from Emigrant Road. The existing infrastructure at the site provides a good reason to allow it to be utilized again for this purpose, to help maintain the infrastructure and clean up the debris and barbed wire currently on the ground near the pond. If this proposed conditional use is not approved, the wells should be properly abandoned and septic system decommissioned.

4. That the proposed use will be consistent with the purposes of this Code, the Comprehensive Plan, and any other statutes, ordinances or policies that may be applicable, and will support rather than interfere with the uses permitted outright in the zone in which it is located.

Applicant’s Statement:

We plan on being completely compliant and following the rules and codes and uses in this area; our family would love to be part of the community as much as we can.

Staff Analysis:
Restoring and utilizing a portion of this property for residential use is not inconsistent with the purposes of the G-1 zone. The proposal could meet the requirements of the Land Development Code standards for the G-1 zone if the structure and septic are set back 100’ from the stream and 20’ from all property lines and the well to be reestablished 100’ set back from the septic and drainfield. The use will not interfere with the range and forest practices uses that are allowed outright in the zone.

CONCLUSIONS:

1) The location, size, design, and operational characteristics of the proposed use are such that it will not have adverse impacts on the property value, livability, and permissible development of the surrounding area; and the proposed addition will be in conformance with the G-1 zone setback requirements as well as the Tribal Building Codes when constructed.

2) The site planning of the proposed use will, as far as reasonably possible, provide an aesthetically pleasing and functional environment to the highest degree consistent with the nature of the use and the given setting, since the site will be cleaned up and the existing infrastructure maintained and because the owner plans to live harmoniously with existing wildlife and the natural landscape. However, the applicant should detail how the proposed building will be sited to minimize impact to the area.

3) There is substantial reason for locating the use in an area where it is only conditionally allowed, as opposed to an area where it is permitted outright, because the residential use is a former single-family home site with remaining infrastructure that needs to be maintained.

4) The proposed use will be consistent with the purpose and goals of the Comprehensive Plan and the Land Development Code because the applicants have been able to express their management desires through the established public hearing process and development standards that the Board enacted to protect the sovereignty of the CTUIR. Those desires have been reviewed to assess the site planning issues in order to protect the public health, safety and welfare of the residents of the Umatilla Indian Reservation, and to promote orderly development of the Umatilla Indian Reservation. The proposal could conform to the setback standards enacted under the G-1 zone and if constructed in conformance with the CTUIR Land Development Code.

DECISION OPTIONS:

In acting on this request, the Land Protection Planning Commission must choose one of the following decision options:

1. Approve the Conditional Use request without conditions;

2. Approve the Conditional Use request with conditions;

3. Deny the Conditional Use request;
4. Recess the hearing until a specified time, date, and place; pending further testimony or information;

5. Table the decision until a subsequent Land Protection Planning Commission meeting.

STAFF RECOMMENDATION:

Based on the preceding facts, findings and conclusions, staff recommends APPROVAL of the request with the following conditions:

1. Applicant must submit a new site plan showing a home and septic location set back from the stream at least 100 feet and meeting the requirements of Chapter 10, Site Plan Review. The previous septic tank must be properly decommissioned with new septic tank and drainfield at least 100 feet from the well being used.

2. Applicant shall apply for and obtain a Development Permit and Sanitation Development Permit from the Tribal Planning office, a Water Use Permit from the Water Resources Program and follow all Cultural Resources Protection Program requirements such as monitoring of ground disturbance.
ATTACHMENT: Plans and Policies

I. CTUIR Comprehensive Plan, 2010; Updated 2018

Goal 5.6 Natural Resources

To protect, restore and enhance the first foods – water, salmon, deer, cous and huckleberry – for the perpetual cultural, economic, and sovereign benefit of the CTUIR.

- Objective 1

To ensure that ground and surface waters are available to satisfy CTUIR treaty rights, the needs of CTUIR members, and the citizens of the Umatilla Indian Reservation;

- Objective 2

To develop sustainable fish harvest opportunities throughout the usual and accustomed fishing stations;

- Objective 3

To protect, enhance, and restore functional floodplain, channel, and watershed processes to provide sustainable and healthy habitat for aquatic species of the First Food order;

Goal 5.1 Organizational Excellence

CTUIR will achieve organizational excellence by providing effective management and operations for all aspects of CTUIR government services, programs and enterprises.

- Objective 1

Demonstrate leadership excellence in the delivery of government, administrative and business services.

SECTION 1.020 Purpose:

The general purpose of this Code is to protect the physical character of the Reservation; to insure, conserve and enhance vegetation, soils, air, water, fish and wildlife resources of the Reservation. Further, it is intent of this Code to regulate building and construction activities to insure that standards are met to protect the public health, safety and welfare of the residents of the Umatilla Indian Reservation, and to implement the provisions of the Comprehensive Plan.

SECTION 3.270 Description and Purpose:

The G-1, Big Game Grazing Forest Zone is designated to provide critical range for big game populations. The purpose of this zone is to preserve and maintain habitat for big game and other wildlife. Lands within this zone are largely undeveloped and located at the higher elevations of the Reservation. Generally these lands are utilized and managed for outdoor recreation, range and timber with very limited developed.

SECTION 3.285 Uses Permitted:

In a G-1 zone the following uses are subject to the issuance of a Development Permit or Forest Practices Permit. Forest practices are subject to Section 4.025 of this Code.
1. Planned grazing systems;
2. Range improvements.
3. Forest Practices:
   A. Timber removal less than or equal to 5,000 board foot gross; such as but not limited to:
      1. Pre-commercial thinning;
      2. Road construction/road closures; or
      3. Non-emergency fuel breaks;
   B. Portable saw mill operations;
   C. Chemical applications;
   D. Prescribed Fire;
   E. Destructive Forest research studies involving <5000 board feet.

SECTION 3.290 Conditioned Uses Permitted:

In a G-1 Big Game Grazing Forest Zone the following uses, and structures accessory to permitted uses, are permitted subject to the requirements listed under Sections 4.025 and 6.010 through 6.035 inclusive and upon issuance of a Development Permit or Forest Practices permit. Accessory structures are not subject to the exceptions found in Section 16.010 of this code.

9. Single Family Dwelling including manufactured housing.

CHAPTER 6 CONDITIONAL USES

SECTION 6.010 Authorization to Grant or Deny Conditional Uses:

Conditional uses listed in this Code, may be permitted, enlarged or altered upon authorization by the Land Protection Planning Commission in accordance with the standards and procedures set forth in this chapter.

1. In permitting a new conditional use or the alteration of an existing conditional use, the Land Protection Planning Commission may impose additional conditions which the Commission considers necessary to protect the best interests of the surrounding property or the Umatilla Reservation as a whole.

2. In the case of a use existing prior to the effective date of this Code and classified in this Code as a conditional use, any change in use or lot area or an alteration of structure shall conform with the requirements for a conditional use.

3. The Land Protection Planning Commission may require an applicant to furnish a performance bond or such other form of assurance that the Commission deems necessary to guarantee development in accordance with the standards established and conditions attached in granting a conditional use.

SECTION 6.015 Circumstances for Granting a Conditional Use:

1. That the locations, size, design, and operations characteristics of the proposed use are such that it will have minimal adverse impact on the property value, livability, and permissible development of the surrounding area. Consideration shall be given to compatibility in terms of scale, coverage, and density, to the alteration of traffic patterns and the capacity of surrounding streets and roads, and to any other relevant impact of the proposed use.

2. That the site planning of the proposed use will, as far as reasonably possible, provide an aesthetically pleasing and functional environment to the highest degree consistent with the nature of the use and the given setting.
3. If the use is permitted outright in another zone, that there is substantial reason for locating the use in an area where it is only conditionally allowed, as opposed to an area where it is permitted outright.

4. That the proposed use will be consistent with the purposes of this Code, the Comprehensive Plan, and any other statutes, ordinances or policies that may be applicable, and will support rather than interfere with the uses permitted outright in the zone in which it is located.

SECTION 6.020 Procedure for Taking Action on a Conditional Use

The procedure for taking action on a conditional use application shall be as follows:

1. A property owner or the Land Protection Planning Commission may initiate a request for a conditional use or the modification of a conditional use by filing an application with the Comprehensive Planning Manager.

2. The Comprehensive Planning Manager or the Natural Resource Commission may require other drawings or information necessary to an understanding of the proposed use and its relationship to surrounding properties.

3. Within 45 days of receipt of the application, the Land Protection Planning Commission shall hold a public hearing and render a decision thereon. The applicant shall be given written notice of the decision by the Planning Staff within five (5) days of the decision.

4. A conditional use permit shall not be approved unless the proposed use would be in compliance with the Umatilla Reservation Comprehensive Plan.

5. An applicant granted a conditional use permit must also obtain a zoning permit prior to commencing development.

SECTION 6.025 Time Limit on a Conditional Use Permit:

A conditional use permit shall be void after one year or such lesser time as the permit may specify unless substantial development pursuant thereto has taken place. However, the Land Protection Planning Commission may extend authorization for an additional period not to exceed one year, upon request.

SECTION 6.030 Time Limit on Reapplication

No application for a conditional use permit shall be considered by the Land Protection Planning Commission within one year of the denial of such a request, unless in the opinion of the Commission new evidence or a change of circumstances warrant it.

CONDITIONAL USE / VARIANCE APPLICATION
SUPPLEMENTAL SHEET

DEAR APPLICANT:

Please fill out this APPLICATION completely and as accurately as possible. If a block does not apply, write 'N/A' in the space provided. An incomplete application cannot be processed.

1) Please fill out your full name, current address and phone number.
   Alexis Elaine Eggerer 1105 South 1st Street Apt 63 Hermiston OR 97838

2) Please fill out the full name, current address and phone number of the legal property owner(s) of the site you are requesting a permit for. If you are the sole property owner, simply write "same" on the first line.
   Roesch Property
   250 SE 3rd Pendleton OR 97801 541-377-3511

3) This is the location of the site as described by section, township and range. If you are not familiar with this method or you do not have access to this information, we can assist in determining the location upon request.

4) Indicate whether the property is fee land (tax lot) or trust land (allotment) and the parcel number. Also specify the parcel acreage.

5) Indicate the right of way or easement road that allows legal access to the property (e.g., county, road, street, or access road). County Road

6) Indicate the current use or uses of the subject property.
   Big Game Hunting

7) Indicate the specific use or uses for which you are requesting this conditional use/variance.
   To Live on the property

8) Explain in details on a separate sheet how the proposed use conforms to the conditional use/variance decision criteria (see attached page) and present a detailed site plan of the proposed use.

9) Read the statement carefully. Sign and date the application only after the application has been completely filled out.

NOTE: If the information presented is unclear or questionable, you may be required to provide further information such as lease agreements, evidence of legal access, legal ownership, etc.

I am the (Circle One): Owner/owner’s authorized representative (If authorized representative, attach letter signed by owner)

TRIBAL PLANNING OFFICE USE ONLY
ATTACHMENT: Conditional Use Decision Criteria (Land Development Code Section 6.015)

A Conditional use may be granted if, on the basis of the application, investigation and evidence submitted findings are made based on the criteria below. A Conditional Use may be granted unqualifiedly or may be granted subject to prescribed conditions.

(1) That the locations, size, design, and operations characteristics of the proposed use are such that it will have minimal adverse impact on the property value, livability, and permissible development of the surrounding area. Consideration shall be given to compatibility in terms of scale, coverage, and density, to the alteration of traffic patterns and the capacity of surrounding streets and roads, and to any other relevant impact of the proposed use.

(2) That the site planning of the proposed use will, as far as reasonably possible, provide an aesthetically pleasing and functional environment to the highest degree consistent with the nature of the use and the given setting.

(3) If the use is permitted outright in another zone, that there is substantial reason for locating the use in an area where it is only conditionally allowed, as opposed to an area where it is permitted outright.

(4) That the proposed use will be consistent with the purposes of this Code, the Comprehensive Plan, and any other statutes, ordinances or policies that may be applicable, and will support rather than interfere with the uses permitted outright in the zone in which it is located.

Variance Decision Criteria (Land Development Code Section 8.015)

A Variance may be granted if, on the basis of the application, investigation and evidence submitted findings are made based on the criteria below. A variance may be granted unqualifiedly or may be granted subject to the prescribed conditions. A variance may be granted only in the event that all of the following circumstances exist:

(1) Exceptional or extraordinary circumstances apply to the property which do not apply generally to other properties in the same zone or vicinity and result from lot size or shape, topography or other circumstances over which the owners of property since enactment of this Code have had no control.

(2) The variance is necessary for the preservation of a property right of the applicant substantially the same as possessed by the owners of other property in the same zone or vicinity.

(3) The variance would not be materially detrimental to the purposes of this Code or to property in the same zone or vicinity in which the property is located or otherwise conflict with the objectives of any Reservation Plan or Policy.

(4) The variance requested is the minimum variance which would alleviate the hardship.
We plan on moving a singlewide trailer mobile home that is 14'w x 66'l. We are planning on using Deanne Simon Westfall's septic to install the septic. This will only be a living space for our family.
I would like to place a singlewide trailer that is 14' x 66' in the same location as the previous trailer that was on the property before and remove all the trash and debris that was left. We plan to live on the property for long term with our family.
November 26, 2020

RE: 69499 Emigrant Rd.

To Whom It May Concern:

Tenants Zachary and Alexis Egerer have signed a long term lease agreement with
The owners and agent of said property. This agreement was signed September 24, 2020.

Tenants have owners’ approval to clean, repair and make any improvements as

Needed upon our approval to make grounds a habitable location.

Sincerely,

Debra Roesch,
Agent

Owners: Jarrod Roesch
Ryan Roesch
Jessica Roesch Montee
Wm Roesch
1. That the locations, size, design, and operations characteristics of the proposed use are such that it will have minimal adverse impact on the property value, livability, and permissible development of the surrounding area. Consideration shall be given to compatibility in terms of scale, coverage, and density, to the alteration of traffic patterns and the capacity of surrounding streets and roads, and to any other relevant impact of the proposed use.

we will have very minimum impact on the surrounding land we are planning on putting this single wide trailer in the same location they previously had in the past there is already an existing two wells. We also plan on cleaning up the all the debris and cleaning up all the fence around the pond so wild life now can safely drink from the pond

2. That the site planning of the proposed use will, as far as reasonably possible, provide an aesthetically pleasing and functional environment to the highest degree consistent with the nature of the use and the given setting.

we want to live in harmony and peace with the animal life in the surrounding area we plan on barring our windows and doors this is not our first time living in a secluded area on a mountain so we are experienced with this kind of territory and animal life
3. If the use is permitted outright in another zone, that there is substantial reason for locating the use in an area where it is only conditionally allowed, as opposed to an area where it is permitted outright.

with the world as it is today facing the pandemic and everything around it in our growing family would like to be comfortably distance from the city life we would love to get back to living off the land and giving back to the land with organically growing a garden with veggies

4. That the proposed use will be consistent with the purposes of this Code, the Comprehensive Plan, and any other statutes, ordinances or policies that may be applicable, and will support rather than interfere with the uses permitted outright in the zone in which is it located.

We plan on being completely compliant and following the rules and codes and uses in this area our family would love to be part of the community as much as we can

PUBLIC HEARING NOTICE

Dear Property Owner:

On February 23, 2021 the Land Protection Planning Commission of the Confederated Tribes of the Umatilla Indian Reservation (CTUIR) will hold a public hearing concerning a Conditional Use request as described below. You are receiving this notice because you are an owner of property located within 250 feet of the subject properties (see map enclosed). According to Section 13.020 of the CTUIR Land Development Code, all owners of property located within 250 feet of the property which is the subject of a public hearing shall be given written notice by mail at least ten days prior to a public hearing.

**Conditional Use #CU-21-001** – Applicant, Alexis Egerer, Hermiston, OR, and property owner Debra Roesch, Pendleton, OR are requesting Conditional Use approval to locate a manufactured home on the subject property at 69499 Emigrant Road. The property is a 7.32 acre parcel identified as Umatilla County Map and Tax Lot 1N3403C0-00700. The property is zoned G-1, Big Game Grazing Forest; single family dwellings, including manufactured housing, are a Conditional Use in the G-1 zone. Conditional Use approvals are subject to CTUIR Land Development Code Chapters 6 and 13.

The hearing will be held on **Tuesday, February 23, 2021 at 9:00 a.m.** Due to COVID-19 precautions, this hearing will be held via Microsoft Teams. If you would like to participate in the hearing or provide testimony, please call 321-754-9526 at 9:00 a.m. The conference ID is 441 735 799#. Materials relating to this proposed conditional use and additional information for joining the meeting are available for review at the Tribal Planning Office or online at [https://ctuir.org/events/lppc-meeting-public-hearing-cu-21-001/](https://ctuir.org/events/lppc-meeting-public-hearing-cu-21-001/).

The public is entitled and encouraged to participate in the hearing and to submit testimony regarding the request. Please submit comments to the Tribal Planning Office by 4:00 pm February 22, 2021 either as a hard copy or by e-mailing them to hollyanderson@ctuir.org.

To obtain further information or if you have questions regarding the hearing process or the proposed conditional use, please contact the Tribal Planning Office at 46411 Timine Way, Pendleton, OR 97801 or call (541) 276-3099.

Sincerely,

Holly E. Anderson
Associate Planner

DATE: January 14, 2021
TO: Tribal Staff Review Committee
FROM: Holly Anderson, Associate Planner, Tribal Planning Office
REGARDING: Meeting Thursday, January 21, 2020, 9:00 am, via Microsoft Teams

The Tribal Staff Review Committee is scheduled to meet on Thursday, January 21, 2021 at 9:00 am to review the following applications:

**Conditional Use File #CU-21-001** – Applicant, Alexis Egerer, Road, Pendleton, OR 97801 seeks approval from the Land Protection Planning Commission to locate a single wide manufactured home on the subject property. The subject property is a 7.32 acre parcel identified as 69499 Emigrant Road, Map and Tax Lot 1N3403C0-00700. The property is zoned G-1, Big Game Grazing Forest. Conditional Use approvals are subject to the CTUIR Land Development Code Chapters 6 and 13.

A public hearing with the Land Planning Protection Commission is proposed to be scheduled for February 9, 2021 at 9:00 a.m.

The application and supporting materials for this request are posted on the [Free4all shared Drive](#) in the TPO folder. If you have questions or need further information, please contact Holly Anderson at ext. 7517.

Each committee member should review the proposals:

- To determine its compatibility with the Tribes’ Comprehensive Plan, Land Development Code, and other Tribal Statutes, Resolutions, and Policies;
- To determine the overall impacts this request may impose on Tribal services and utilities, the environment, wildlife, and on the Reservation

Call-in to the TSRC meeting through Microsoft Teams Video Conference or by phone:
