

The Central Campus scheme aims to situate the Rec Center, Longhouse, Veteran's Center, Memorial, and Arbor to face into a single shared public space which can be used for gatherings and markets. A portion of Confederated Way is converted into a pedestrian-only walking path which wraps around the southern part of the site and connects to adjacent walking trails. To redirect traffic, July Grounds Lane is redirected behind the Veteran's center in order to access Confederated Way and a large lot for Longhouse parking.
