**ATTACHMENT: Conditional Use Decision Criteria (Land Development Code Section 6.015)**

A Conditional use may be granted if, on the basis of the application, investigation and evidence submitted findings are made based on the criteria below. A Conditional Use may be granted unqualifiedly or may be granted subject to prescribed conditions.

- (1) That the locations, size, design, and operations characteristics of the proposed use are such that it will have minimal adverse impact on the property value, livability, and permissible development of the surrounding area. Consideration shall be given to compatibility in terms of scale, coverage, and density, to the alteration of traffic patterns and the capacity of surrounding streets and roads, and to any other relevant impact of the proposed use.
- (2) That the site planning of the proposed use will, as far as reasonably possible, provide an aesthetically pleasing and functional environment to the highest degree consistent with the nature of the use and the given setting.
- (3) If the use is permitted outright in another zone, that there is substantial reason for locating the use in an area where it is only conditionally allowed, as opposed to an area where it is permitted outright.
- (4) That the proposed use will be consistent with the purposes of this Code, the Comprehensive Plan, and any other statutes, ordinances or policies that may be applicable, and will support rather than interfere with the uses permitted outright in the zone in which is it located.

**Variance Decision Criteria (Land Development Code Section 8.015)**

A Variance may be granted if, on the basis of the application, investigation and evidence submitted findings are made based on the criteria below. A variance may be granted unqualifiedly or may be granted subject to the prescribed conditions. A variance may be granted only in the event that all of the following circumstances exist:

- (1) Exceptional or extraordinary circumstances apply to the property which do not apply generally to other properties in the same zone or vicinity and result from lot size or shape, topography or other circumstances over which the owners of property since enactment of this Code have had no control.
- (2) The variance is necessary for the preservation of a property right of the applicant substantially the same as possessed by the owners of other property in the same zone or vicinity.
- (3) The variance would not be materially detrimental to the purposes of this Code or to property in the same zone or vicinity in which the property is located or otherwise conflict with the objectives of any Reservation Plan or Policy.
- (4) The variance requested is the minimum variance which would alleviate the hardship.
