- No Parking
- Truck Parking Sign

1. The EASTBOUND freeway is closed somewhere east of Exit 216 due to crash, severe weather or other incident.

All EASTBOUND TRAFFIC MUST EXIT FREEWAY AT EXIT 216 and find safe, legal place to park, or return to Pendleton or other communities with services (food/lodging/etc.).

DETOUR NOTE: Old U.S. Highway 30 and Kash Kash Road are not viable detour routes during freeway closures, due to limited winter maintenance. Motorists could become stranded on remote roadways without turnaround or access to resources.

DETOUR NOTE: OR 204 (Tollgate Highway) is not a viable detour route for freeway traffic when I-84 is closed. This is especially true in wintertime when over 10 feet of snow may be alongside OR 204, creating narrow, snow covered lanes with limited shoulders. OR 204 is often closed to through traffic when I-84 is closed. Do not blindly follow GPS map devices. Be sure you are familiar with any detour routes and check TripCheck.com.

2. TRUCK PARKING DURING CLOSURE

A. Limited truck parking is available at the end of Tokti Road and on the eastbound shoulder of Tokti Road.

B. If no more truck parking is available on Tokti Road, at Arrowhead Travel Plaza, or Wildhouse Resort/Casino use Exit 216 interchange to get back onto Westbound freeway (towards Pendleton), then take Exit 210. From Exit 210 get back on Eastbound freeway to park on RIGHT shoulder, then wait until Eastbound freeway opens. Do not park on freeway lanes.

TRUCK PARKING NOTE: No truck parking along South Market Road (no truck turnaround south of Tokti Road).

3. LEVEL 4 CLOSURE. NO TRAFFIC ALLOWED EAST OF EXIT 216

Due to conditions east of Exit 216, we will NOT be sorting local traffic. You will need to wait until the freeway status changes (either open to all traffic, or opened on limited bases to local traffic trying to get home).

PLEASE BE PATIENT, THE FREEWAY WILL EVENTUALLY OPEN. Prior to fully opening to all freeway traffic, sections of the eastbound freeway MAY be open to local residents trying to get home. This will only occur if road and weather conditions, and resources allow. Continue to check TripCheck.com for updates and click on the Exit 216 closure icon for more information. If no information appears, the eastbound lanes remains fully closed to all traffic.

4. ROAD CLOSURE STATUS CAN CHANGE AT ANY TIME. ALWAYS CHECK TRIPCHECK.COM FOR CURRENT ROAD/WEATHER CONDITIONS.
