*PRESS RELEASE*

FOR IMMEDIATE RELEASE

Road Construction on Highway 331 and Timíne Way

Road construction will start Monday, July 27th. Turn lanes will be added to Highway 331 at the Timine Way intersection going into the Governance Center.

Contractors will be moving fiber lines to new power poles Monday and Tuesday, July 27th and 28th from 4pm to 8pm. The outage will affect the UMAREZ wireless services, and will affect access to the CTUIR domain computers and phones.

Traffic delays may occur as the contractor constructs the turn lanes off Highway 331. The entrance into Timine Way will be closed and the alternative route will be along Old Mission Highway north of the Education Facility.

The project construction period will be from July 27, 2020 until completed in mid to late October.

Please be safe and take extra care with flaggers on the road.
