RE: Road Closure on Timine Way

When: Revised to Thursday, October 20th 7:00 am - 3:00 pm

Holly,

Our site work contractor will need to close the street access to the Governance Center from Timine Way to allow for the construction of the sewer connection where it crosses Timine Way per drawing below. The roadway would be closed from Mission Rd. to the first entrance to the parking lot for the Governance Center with temporary barricades and signs stating “Road Closed”. Additionally, the walking path will need to be closed for public safety along the same location with barricades and signage. The openings in the asphalt at the road and the walking path will be filled with ¾ gravel up to grade until asphalt repairs are feasible.

Respectfully submitted,
Sunny Harmeson
